Summary

Databricks Certified Data engineer Associate and **Microsoft Certified Azure Data Engineer Associate** with experience in building data pipelines using Azure tools like **Data Factory**, **Databricks**, and **Azure Data Lake**. Working with **PySpark**, **SQL**, and **ETL** processes.

Education

Siddaganga Institute of Technology, Tumkur, Karnataka

Aug 2018 – Aug 2022

B.Tech in Electronics and Communication Engineering

Grade: First Class

Skills

- **Languages:** SQL
- **Technologies:** PySpark, Databricks, Azure Data Factory
- **Tools:** ServiceNow, Azure DevOps, Power BI
- **Concepts:** ETL Development, Data Quality, Delta Lake, Medallion Architecture

Work Experience

Tata Consultancy Services

June 2023 – Present

Data Engineer

- Designed and managed scalable data pipelines using the **Azure ecosystem**, improving scalability and operational efficiency.
- Integrated data from **SharePoint**, **SAP**, **Salesforce**, and **SFTP** into **Azure Data Lake Storage Gen2**.
- Automated ETL workflows with **Azure Data Factory** ensuring consistent and timely data flow.
- Implemented **Medallion Architecture** (*Bronze → Silver → Gold*) using **Databricks**.
- Developed optimized **Power BI views** to enable faster stakeholder insights.
- Maintained data quality and governance through validation checks and tuning best practices.
- Resolved real-time issues using **ServiceNow** and **Azure DevOps Boards**.

Certifications

- [Microsoft Certified: Azure Data Engineer Associate](#)
- [Databricks Certified Data Engineer Associate](#)
- [Advanced SQL – HackerRank](#)

Awards and Activities

- Received **TCS Applause Award** multiple times for outstanding performance.
- Client appreciation for surpassing expectations and consistency.
